DETAILED ACTION

This application was filed 15 March 2002 and is a DIV of 09/430072 (filed 10-18-1999, now US Patent #5,376,528) which is a CON of 09/189,463 (filed 11-10-1998, ABN) which is a Con of 08/600,622 (filed 2-13-1996, ABN). Claims 1-8 and 21 have been deleted by a preliminary amendment. Claims 9-20 are before the Examiner.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, claims 9-20 are ambiguous due to the claims being unclear as to what is being claimed. Are the claims drawn to a compound, composition or a pharmaceutical composition? Clarification is required.

Claims 10-19 are ambiguous due to the claims having trademarks in the claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 9-20 are rejected under 35 U.S.C. 102(b/e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Isakson (US Patent #6,136,839), Gregory (US Patent #6,407,140), WO 96/41626, and Engelhardt (CA 125:292089).

Isakson discloses combination of cyclooxygenase-2 inhibitors and 5-lipoxygenase inhibitors with other compounds that are anti-inflammatory compounds.

Gregory discloses combinations of cyclooxygenase-2 inhibitors, 5-lipoxygenase inhibitors with other active ingredients.

WO discloses combinations of cyclooxygenase-2 inhibitors and 5-lipoxygenase inhibitors that work as immunosuppressants for organ transplants.

Engelhardt discloses a combination therapy of several active ingredients including COX-2 inhibitors, leukocyte inhibitors and 5-lipoxygenase inhibitors.
